

# FEED SCHEDULES AND GUIDELINES

## COCO COIR - 15L POTS

Ecothrive Coco Coir is compatible with any coco-specific liquid feed, but to achieve optimal results, we recommend adding beneficial biology products like Biosys and Charge. This enhances root health and nutrient uptake. Flourish can boost plant vitality, while Trace can be useful when using weak nutrient solutions (1.2 mS or below).

Water/foliar application rate:  

**per litre of water**

Top-dress application rate:  

**per 15L pot**

		GROWTH PHASE			BLOOM PHASE									
		Wk 1	Wk 2	Wk 3	Wk 1	Wk 2	Wk 3	Wk 4	Wk 5	Wk 6	Wk 7	Wk 8	Wk 9	
<b>LEVEL 1</b>	<b>COCO BASE NUTRIENT</b>	WATER Follow your preferred manufacturer's recommended dosage for your liquid coco base feed and combine with the Ecothrive range as detailed below.												
<b>LEVEL 2</b> ADD BENEFICIAL BIOLOGY	<b>CHARGE</b>	TOP-DRESS	--	--	3-6g (1-2tsp)	--	3-6g (1-2tsp)	--	3-6g (1-2tsp)	--	--	--	--	
	<b>BIOSYS</b>	WATER	1g	1g	0.5g	0.5g	0.5g	0.5g	0.5g	0.5g	0.5g	0.5g	--	
<b>LEVEL 3</b> STIMULATE NUTRIENT UPTAKE	<b>FLOURISH</b> Choose ONE method	WATER	0.5ml	0.5ml	0.5ml	0.5ml	0.5ml	0.25ml	0.25ml	0.25ml	0.25ml	0.25ml	0.25ml	--
		FOLIAR	10ml	10ml	10ml	10ml	10ml	--	--	--	--	--	--	--

Growers can choose to use just Level 1, or combine it with Levels 2 and 3 for more intensive, performance-focused cultivation.
